

Sharp Grossmont Hospital for Neuroscience

Brady Neuroscience Clinic Specialized care all in one place

Sharp Grossmont Hospital for Neuroscience is San Diego's first comprehensive specialty hospital dedicated to advanced brain and spine care. It is also home to the multi-disciplinary Brady Neuroscience Clinic, where a team of experts work together to evaluate and treat the most complex and challenging cases affecting the brain and spine, including:

- Brain and spine tumors
- Degenerative disc disease
- Movement disorders such as Parkinson's disease and essential tremor
- Neurological conditions affecting your vision
- Brain conditions that can be treated with endovascular therapies utilizing the latest technology

Depending on your insurance, a referral from your primary care doctor may be required before scheduling an appointment, so please check with your carrier. If a referral is needed, scan the appropriate QR code on the back to access a referral form to bring to your primary care visit. In some cases, referrals may come directly from your neurologist.

Contact us

Call our main number to be directed to the services listed on the back page, or to fax us:

Phone: 619-740-3200 **Fax:** 619-740-4797 **Email:** neurosurgicalcare@sharp.com

Neurosurgery

Our specialized neurosurgery clinic focuses on treating diseases affecting the brain, skull base, spinal cord, spinal column, and peripheral nerves, using advanced technology.

Movement Disorders

Movement disorders such as Parkinson's disease and essential tremor can impact your daily life, basic activities, and ability to move easily. Our clinicians provide the care you need to help you return to your everyday life.

Neuro-Ophthalmology

Through our dedicated clinic, we offer specialized neuro-ophthalmology services to treat vision issues associated with neurological conditions.

Complex Spine

We address conditions such as spinal tumors, deformities, fractures and degenerative disc disease, using a multi-disciplinary approach tailored to each patient's specific needs.

Brain Endovascular

Our expert team offers advanced endovascular therapies for brain conditions, utilizing the latest technology to deliver safe and effective treatment.

Thanks to the generous lead gift from Mary Alice Brady, our neuroscience clinic is named the Ron and Mary Alice Brady Neuroscience Clinic. The Brady family is well-known in East San Diego County for their business and philanthropic contributions. This clinic will transform patients' lives for generations, thanks to Ron and Mary Alice's remarkable generosity.
